## The Budget Debate Is Here – Aging & Disability Services Are on the Line

The federal FY2026 budget debate is heating up in Congress, and proposed cuts could affect essential services that older and disabled adults in Napa and Solano Counties rely on—such as in-home care, food assistance and caregiver support.

These programs don't just improve quality of life—they help prevent hospitalizations and delay the need for costly institutional care. In fact, every federal dollar invested in these services is matched by nearly three dollars in local support.

We encourage our community to stay informed and follow the budget process as decisions near. Visit [www.aaans.org/issues](http://www.aaans.org/issues) for updates and more information.
